Amendments to the Drawings.

Two (2) sheets of substitute formal drawings, comprising Figs. 4-4a, are appended hereto and transmitted herewith.

Amendment to the Specification.

Please amend the last paragraph on page 3 of the specification as follows:

-- A further object of the present invention is to provide an in-line converting and printing process for manufacture of such labels. --

Remarks.

An issue fee was submitted for payment herein on February 24, 2006. This Amendment is submitted pursuant to 37 C.F.R. §1.312 and MPEP §714.16(d), sub. II ("AMENDMENTS WHICH EMBODY MERELY THE CORRECTION OF FORMAL MATTERS IN THE SPECIFICATION ..."); it is simply a restatement of requests for correction of formal matters that were earlier presented before payment of the issue fee.

In the aforementioned telephone conference, Examiner Henderson stated that the two aforementioned submissions (of February 09 and February 16) would be considered only by way of (i) a request for a certificate of correction, or (ii) a Rule 312 amendment. Therefore, this Amendment is being respectfully submitted so that the subject

matter of the two earlier submissions may be considered and properly entered before a patent is granted and published herein.

Conclusion.

The Applicant respectfully requests entry of the amended drawings and amendment to the specification as described above, further to the submissions of February 09 and 16, 2006.

The Applicant and his counsel would appreciate any further inquiry from the Examiner, if deemed necessary after consideration of this Amendment, by way of a telephone conversation with counsel so that a patent grant may be promptly issued herein.

Respectfully submitted,
Joseph D. Franko, Sr.
